"When Women Love."

As long as the world goes round there will be conspiracies against goodness and virtue. In the play "When Women Love," written by William W. LaPoint, there is a story of heart interest that commends more than ordinary interest.

A young girl weighted with the care of an invalid mother and younger sister, struggles against poverty and privation, is accused of crime, a man made in the same old image persecutes, accuses and in the end finds the old adage is only too true, "The Wages of Sin is Death."

## Signs of Disease

The First Signs of Disease are a Poor Complexion, Weakness, Emaciation and Lack of Vitality.

The first sign of returning health is increase of flesh, strength and vigor. This weakness, emaciation and lack of vitality simply means that certain substances, which go to make up the blood and nerves, have become exhausted; and to renew flesh, muscle and strength, these substances must be restored. Dr. Chase's Blood and Nerve Food is composed of the same kind of substances that are lacking in the impoverished blood and nerves when in poor health, and abundant in the rich juices that flow through the system when in perfect health. It people would take this food occasionally when in health to keep their blood and nerves in good condition, many spells of sickness and wasting disease would be prevented. It makes sick people well, puts solid flesh and muscle on thin people, gives strength to weak people, restores the lost vitality to nervous people, imparts the tint of health to pale and sallow people. It adds years to life and puts life into years. Price 50 cents. Book free.

Sold and guaranteed by E. A. Drown.

## THE WRITERS.

Conan Doyle admits that he has become tired of Sherlock Holmes—the time for good. He says the detective will appear in but one more story.

Dr. Henry B. Stiles, the old Brooklyn historian, has turned out another and probably his last book. His first history was published in 1839, since which time he has written thirteen volumes.

Dr. George Sigerson is probably the busiest medical man in Dublin, and he is one of the greatest of living Irish scholars as well. More than that, he is a leader writer, a powerful land reformer, a translator of the old Gaelic tongue into modern verse and an original poet of great power and charm.
